

TECHNOLOGY INTELLIGENCE SERVICE

Games

Comprehensive, continuously updated intelligence on games content, distribution, and hardware

As the gaming sector experiences deep and disruptive changes in its business models, distribution, industry and platforms, business leaders in the space need a trusted source of market intelligence to aid them in making timely and informed decisions.

BENEFITS

- Strategic understanding of the breadth and depth of the global games market
- Timely decision-making around market entry and understanding of emerging games-related commercial opportunities
- Accurate assessment of the competitive landscape
- Improved tactical and strategic planning

Market Insights

Breaking games sector news and analysis with both industry and market level analysis.

Reports

Topical overview and in-depth strategic reports on gaming market dynamics, emerging trends, country, company and industry-level analysis.

Market Trackers

Historic data and forecasts, delivered in Excel and in IHS TRAX®, an online analysis tool.

Analyst Access

Bespoke access to our global team of advertising analysts with in-depth local expertise for prompt responses to urgent questions, behind-the-scenes information, and context on our data.

The Games Intelligence Service

IHS Markit Games Intelligence Service offers extensive data and analysis of the evolving world of games media and hardware. Developed and maintained by an experienced team of globally positioned analysts, this service provides accurate, continuously updated market data, forecasts and reports that give our clients deep perspective on the global games sector, its growth drivers, and its key players. The service provides extensive coverage of well-established games markets - games consoles and handhelds - as well as burgeoning digital games segments - multiplayer online games, subscription services, social network games, download and on-demand games.

Whether you are looking to grow market share or optimize your business strategies, IHS Intelligence Services offer you comprehensive global coverage, including accurate, timely data and analysis, insightful market opinions, and direct access to IHS analysts. Let our expertise guide your critical business decisions in the games sector, and across a broad span of related media and technology sectors.

Research Coverage

IHS Markit Technology Intelligence Service clients are supported by a continuous flow of research across geographies, topics and market segments. These are presented in formats designed to make our insights, analysis, and advice succinct and easily accessible.
