

IHS Markit™

IHS MARKIT TECHNOLOGY INTELLIGENCE SERVICE

Access Control - Annual

Extensive research on equipment, hosted/managed services, mobile readers and credentials, identity management and installed base.

Real time access to a continuous flow of research

COVERAGE

- The most granular access control market analysis via continuous coverage of 40 equipment types across 15 industries, and 35 countries/sub-regions
- Deep dive coverage for select countries per year
- Tracking of historical access control trends
- iCLASS SE, mobile readers & credentials and software split by cloud-based and local, biometric electromechanical locks

Flagship Product

Comprehensive access control database, historic and forecasted, delivered in Excel and in IHS TRAX, an online analysis tool. The file is released annually in May; each customer is entitled to one flagship per year of service.

Analyst Insights

Client-exclusive commentary on developments throughout the year.

Analyst Access

For prompt responses to urgent and unique questions

Market Briefs

Studies addressing key trends throughout the year

Clients of this service will receive:

Access Control Intelligence Database – Delivered in TRAX and Excel, more than 200 tables and figures which include revenues (\$M), units and ASP. Included in the Excel files for each region are more than 60 combined products, end-users. Although the main global dataset is updated annually, select countries will be profiled within the database at other times throughout the year.

In addition to the database, deep-dive data and analyses, delivered in XLS and pdf, provide in-depth insight into the access control markets and adjacent areas of interest.

Market Briefs – Three studies on important topics will be released throughout the year. Potential 2018 topics are Access Control as a Service (ACaaS), Physical Identity Access Management (PIAM), Access Control Verticals Report (Unprecedented), and Access Control Projects Analysis.

Time Period	Measurements	Regions
